What they are saying about Ilene's Gourmet Typography Training...

"Your course was great! Since taking it, I can't help but look at every book title, magazine headline, and even company logos, trying to find out what they did wrong! And how often that's the case! It was really helpful and entertaining!"

— Robyn Hinckley, Design Supervisor

"I attended your Gourmet Typography workshop and just wanted to extend a sincere thank you for a fabulous day! It has been a long time since I have heard someone speak on a topic with such passion. It really was inspiring. Ilene, thanks for setting me back on track. You are doing great things."

— Alana Ruoso Loughlin, Art Director

"So many teachers are painfully boring, rhetorical, full of themselves, etc. One walks away feeling ripped-off and dulled out. Your class was fun, energetic and chuck-full of info! I could have studied type for days on end."

— Alicia Clarens, Graphic Artist

"I recently attended your Gourmet Typography workshop and wanted to thank you again for an amazing day. I am a recent graduate from a Graphic Design program, but type wasn't stressed at my school at all. You've given me a new eye for type; I look at type completely differently now."

— Anthony Vella-Zarb, Designer

"Your class was exceptional. I will never see letters the same again! What have you done? Hah! Thanks. I would like the designers on my team to attend your class in the future so please keep me posted regarding future workshops."

— Erin Greene, Brand & Design Manager

"Thank you for your excellent seminar. It was a pleasure from beginning to end. I feel I learned a lot from the day, even those things which I would have said I 'knew already' I didn't really have so clearly expressed in my own mind."

— Val Fullard, Typographer & Instructor

"As a working professional in the advertising industry with 10 years of creative experience, I can tell you that time is always a commodity. Therefore when looking for training to further my skill set there is always a fear that the course will be too beginner and/or a waste of time. To the contrary, your training was very educational and a lot of fun."

— Jason Quintiliano, Senior Art Director

"Many thanks, my colleagues and I really got a lot out of the session. We were blown away at how much you were able to accomplish in just one day and what an impact it had. We are definitely seeing more critically. Not only did we pick out all the type faux-pas around Boston, but I was even surprised coming back to Atlanta and reviewing our own work. I really appreciate having been able to be a part of the class, so thanks!"

— Jay Rogers, Art Director
